

ELECTROHEAT SUB ZERO XL / TITANIUM HEAT PUMP POOL HEATER

**NOW HEATING BELOW
FREEZING POINT!**

**Extend the use of
your heat pump
in early spring
and late fall**

**Give you the edge
to maximize your
summer pleasure**

85-105-125,000 BTU's

**CABINET
5 years
LIMITED
WARRANTY**

ELECTROHEAT SUB ZERO

XL / TITANIUM

This new Waterco heat pump will heat the water of your pool when ambient air temperature is below freezing point (as low as 28 °F)

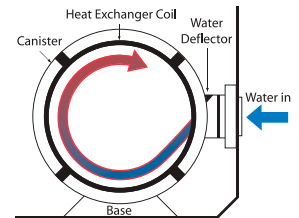

85-105-125,000 BTU'S

- Smart digital controller with troubleshooting features
- Dual Pool / Spa temperature settings
- Scroll type compressor
- Thermostatic expansion valve
- High density titanium heat exchanger
- Automatic hot gas defrost
- Bi-flow filter drier
- Liquid refrigerant suction line accumulator
- Automatic heating mode at low ambient temperature
- UV protected ABS cabinet
- Compatible with a remote control system
- Compatible with salt chlorine generator

Total Protection

Heat exchanger made of industrial grade titanium and high quality titanium to copper junction process assuring an unmatched protection against erosion and corrosion (10-years warranty part only). A long lasting choice, low noise level and ultra efficient!

Specifications	85	105	125
Nominal heating capacity (BTU/h)*	85,000 btu	105,000 btu	125,000 btu
Water flow (LPM/GPM)	Min: 114 LPM/30 GPM – Max: 302 LPM/80 GPM		
Water connections	1 1/2" / 3,81 cm		
Power supply (volts/phase)	220/1		
Power output (kW)	25	30.8	36.6
Power Consumption (kW)	4.3	6.3	7.0
Circuit breaker (Amp)	40	40	50
Amperage (Amp)	24	30	31
Dimensions (inches/cm)	35 x 35 x 39 89 x 89 x 99	35 x 35 x 39 89 x 89 x 99	35 x 35 x 39 89 x 89 x 99
Weight (lbs/kg)	211/96	235/106	254/115

Heat Power !

The exclusive design of the heat exchanger creates an unmatched and powerful heat transfer due to a greater surface contact with the water circulating around the condenser and generating a higher temperature differential between the water entering and leaving the heat exchanger.

**Greater Temperature
Differential...Greater Heat
Power...Faster Results!**

* The heating capacity depends on water and ambient temperature, as well as humidity level.

Limited warranty :
5 years parts (limited)
3 years labor (limited)
10 years heat exchanger (parts only)
