

Luxury Monaco Rollers Innovation in Action

The Monaco

...the luxury domestic reel system at a realistic price!

available in 3 different sizes

- Small (pools up to 12' / 3.60m wide)
- Medium (pools up to 16' / 4.85m wide)
- Large (pools up to 20' / 6.10m wide)

available in 3 different models

- Monaco Standard
- Monaco Deluxe
- Monaco Premier (*with SmartGear*)

Everything about this reel has been carefully thought out, designed, and manufactured to a high quality to make a reel that does the job it is supposed to – wind covers on and off a pool easily.

The following features come as standard for all models of Monaco.

Anodised aluminium tube which has extra grooves for optimum strength. This tube will not sag under the weight of a solar cover and is so strong that it can also be used for a semi-commercial reel.

The clamping bar is extra long and round for added strength and both clamping bar and tube are easily adjusted, located and fixed into position by heavy duty allen key bolts.

The unique design of the yoke with its integrated rollers, or "coaster bearings", makes the operation of the reel extremely easy.

The stands are made from 1 $\frac{3}{4}$ " stainless steel for extra stability.

Because of the strength and stability of the reel, we believe that in most site conditions, deck anchors will not be necessary.

The special reinforced ends, or "feet", are adjustable for uneven paving and castors can be retro-fitted at any time.

The Monaco Standard

Comes with

- standard features as described
- Standard steering wheel

The Monaco Deluxe

Comes with

- standard features as described
- Stylish, marine standard, deluxe steering wheel

The Monaco Premier

Comes with

- standard features as described,
- Stylish, marine standard, deluxe steering wheel
- Factory fitted SmartGear, a unique 3to1 reduction gearbox which really does make light work of winding a cover off a pool. SmartGear has been designed to be retro-fitted so one can be added to the Monaco Standard or Deluxe at a later stage.
